

PLATEAU WATER TABLE 100

Because every landowner has different needs, we created the Plateau Water Table 100. This compact alternative to the Plateau Water Table 305 also attracts more wildlife to your land but for less cost.

Like its big brother, the Plateau Water Table 100 is a rigorously tested and refined portable wildlife water source designed to encourage wildlife use. The sturdy, steel frame offers ease in transport and handling, and fast installation. Plus, its lower cost means multiple systems can be economically deployed wherever water supply is an issue.

The Plateau Water Table 100 comes complete and ready to assemble with all necessary components, hardware and assembly/installation instructions, or have our trained technicians install, pre-fill and test your system for you.

\$895* or \$995 installed**

*Plus tax **Plus tax and mileage

FEATURES:

- ◆ Sturdy 5'x6' powder-coated steel construction for years of durable, rust-resistant service.
- ◆ Heavy-gauge roofing panels.
- ◆ 100-gallon tank blocks UV penetration to reduce algae build up.
- ◆ Stainless Steel, low-to-the-ground watering pan allows easy access (and exit) for all types and sizes of wild-life.
- ◆ Freeze-resistant system helps guard against busted floats or lines.
