PLATEAU WATER TABLE 305

Attract more deer and other wildlife to your land with the wildlife rainwater collection system that sets the standard for wildlife products.

Since its debut almost a decade ago, the Plateau Water Table 305 has been rigorously tested, improved, upgraded and refined, resulting in our current offering—a sturdy, steel framed, supplemental water source designed to provide years of use.

The portable Plateau Water Table 305 comes complete and ready to assemble with all necessary components, hardware, and assembly/installation instructions, or have our trained technicians install, pre-fill (to 100 gallons) and test your system for you.

Installation and maintenance of the Plateau Water Table 305 also provides a 10 year credit for your Wildlife Management Plan activities.

\$1,495* or \$1,695 installed**

*Plus tax **Plus tax and mileage

FEATURES:

- ◆ Powder-coated frame, legs, and bracing material for a durable finish
- ◆ Heavy gauge steel roofing panels
- ◆ Downspout/plumbing designed to restrict varmint entry and consequent damage, as well as make assembly faster with less likelihood of leaking
- ◆ 305 gallon black poly tank prohibits UV transfer to reduce algae issues
- ◆ 5' x 8' roof (40 sq feet) catches 22.5–24.5 gallons per inch of rain
- ◆ Galvanized, low-to-the-ground watering pan allows easy access (and exit) for all types and sizes of wildlife
- ◆ Freeze-resistant system helps guard against broken floats or lines
