

Early Bird Special: Fall Pollinator Plants

James Hall
Senior Wildlife Biologist, CWB, RPTC

FALL POLLINATOR PLANTS

- **Fall / Autumn –
September 22nd -
December 21st**
- **Break from the heat**
- **Peak pollinator
migration**

WHO ARE THE POLLINATORS?

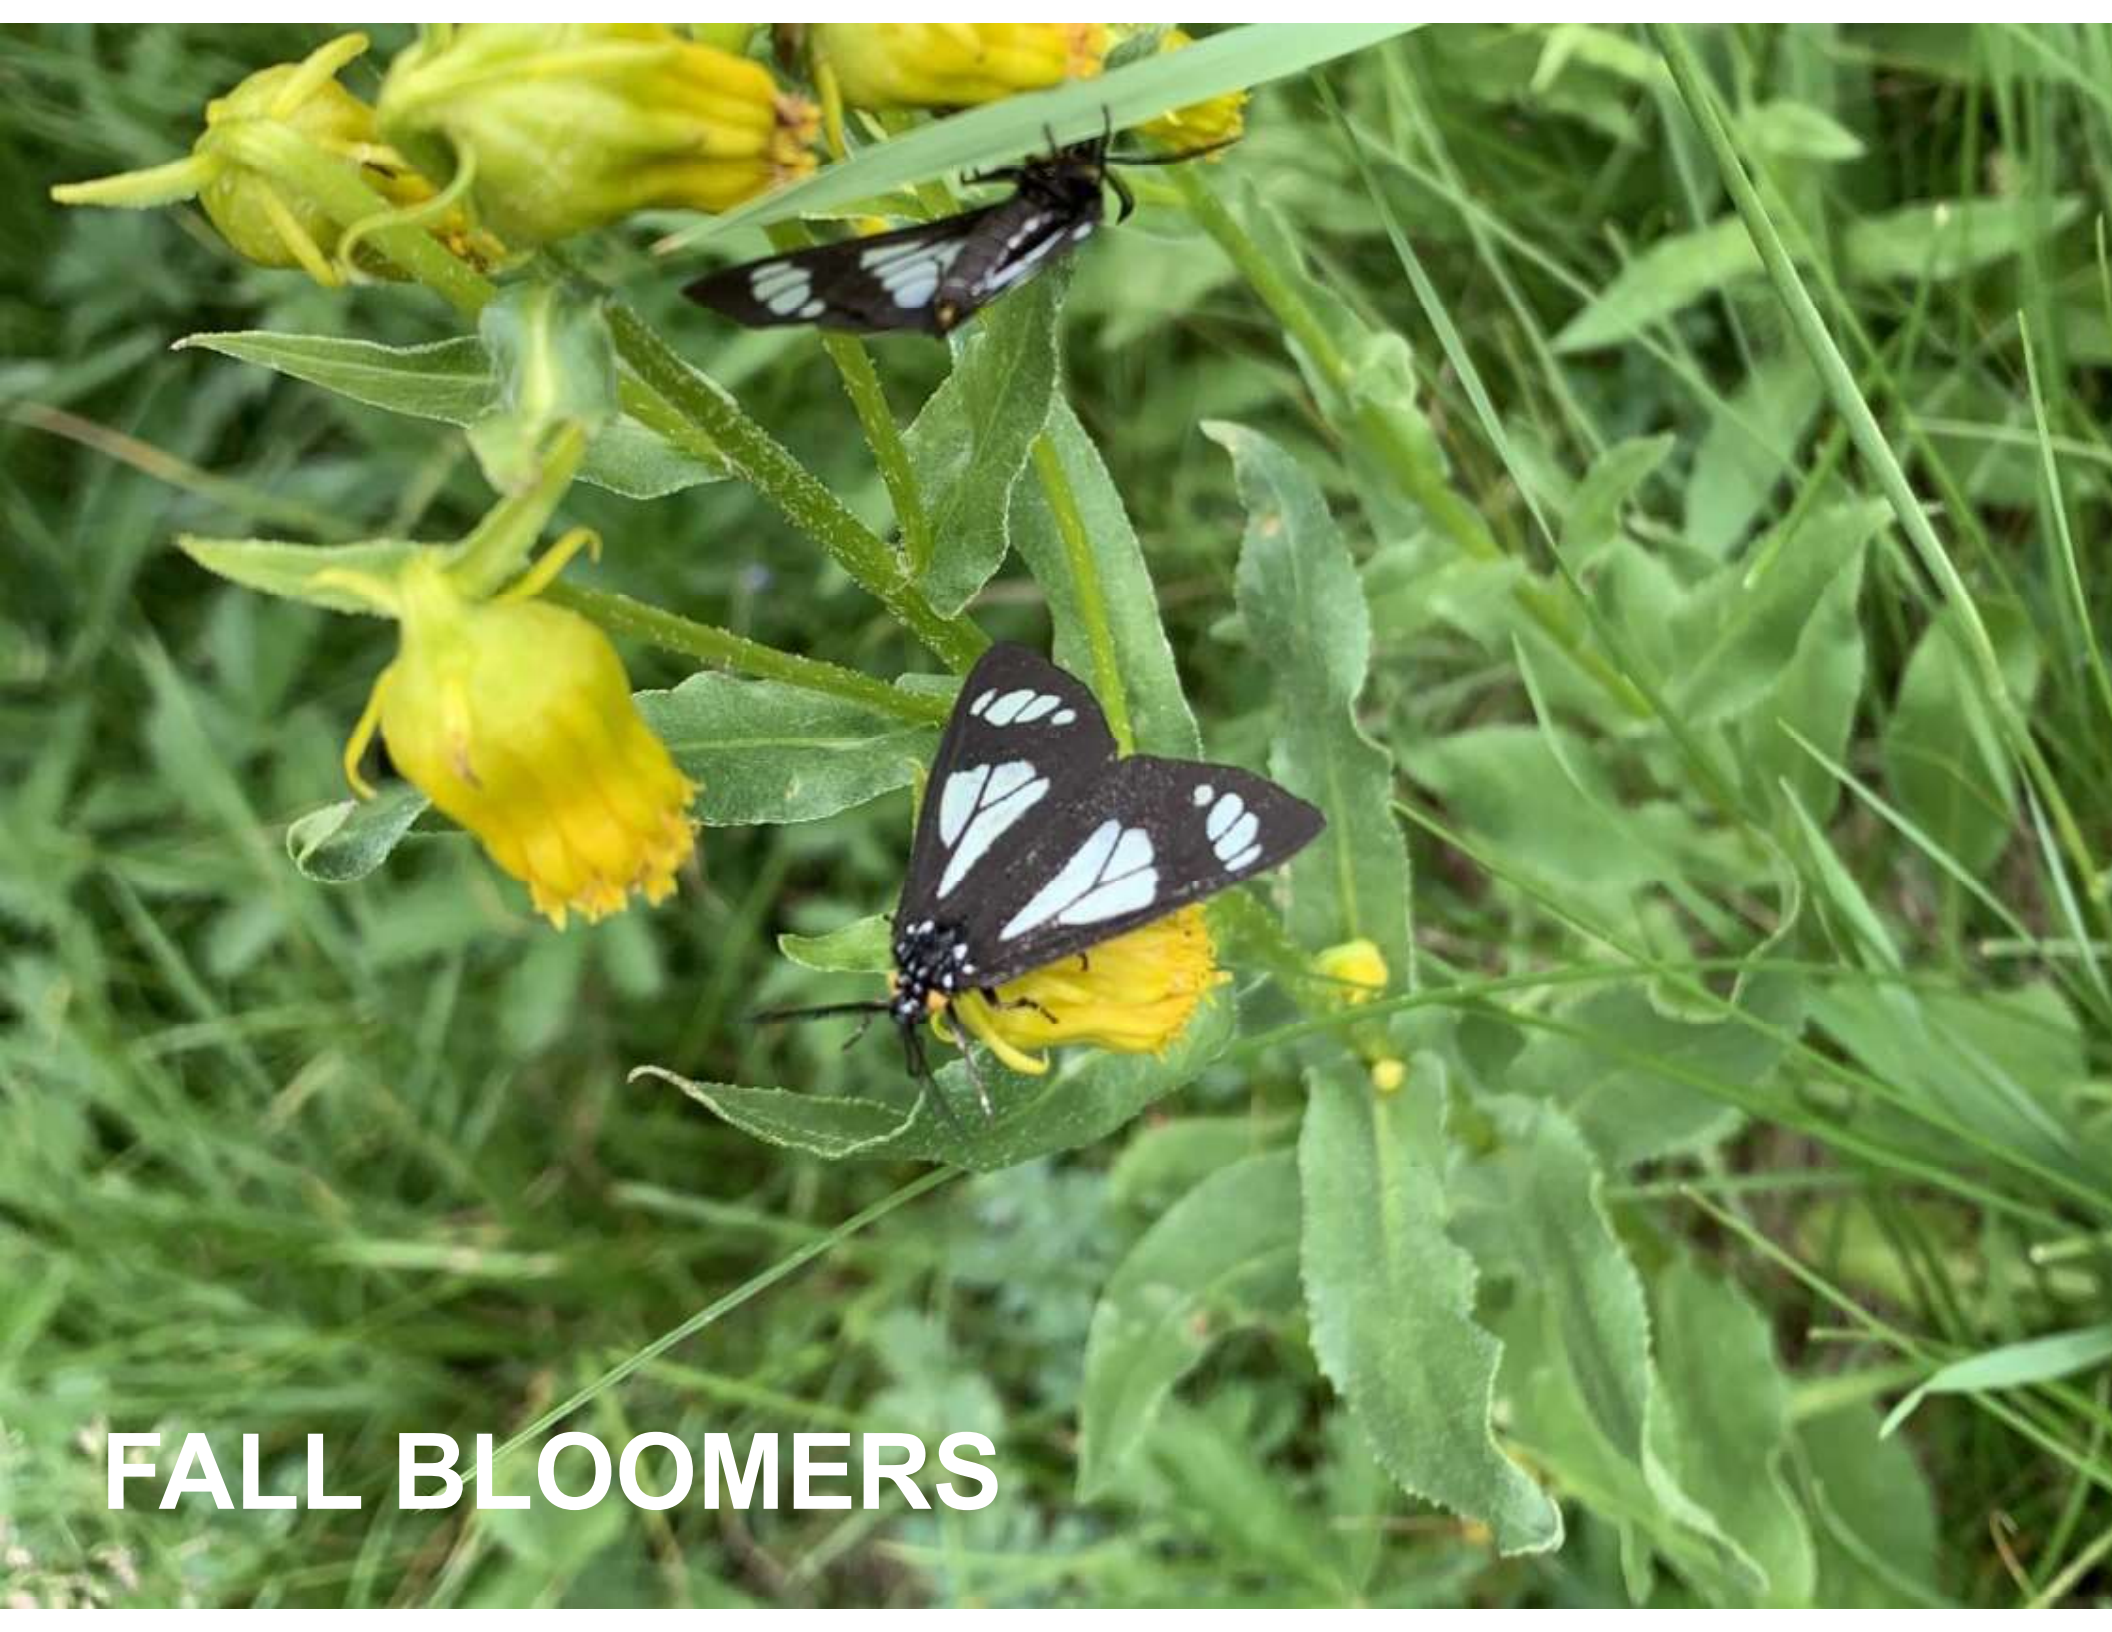

- Bees
- Butterflies
- Moths
- Wasps
- Flies
- Beetles
- Bats
- Birds
- Wind

MONARCH BUTTERFLY MIGRATION

- Thousands of miles
- Requires nectar corridors
- Spring/Summer blooms complete
- Need for plants that bloom in the Fall

FALL BLOOMERS

FROSTWEED

- Tall growing
- Dense clumps
- Full shade

SNOW-ON-THE PRAIRIE

- Tall growing
- Spread out
- Disturbed pasture
- Full sun

BROOMWEED & RAGWEED

VERBENA

- Spring & Fall
- Fields and pastures

STRAGGLER DAISY

- Low-growing
- Full shade
- Tiny flowers
- Good for backyards

GOLDENROD

- Tall & Showy
- Moist soils
- Sun or part shade

MAXIMILLIAN SUNFLOWER

- Tall growing
- Full sun

PURPLE ASTER

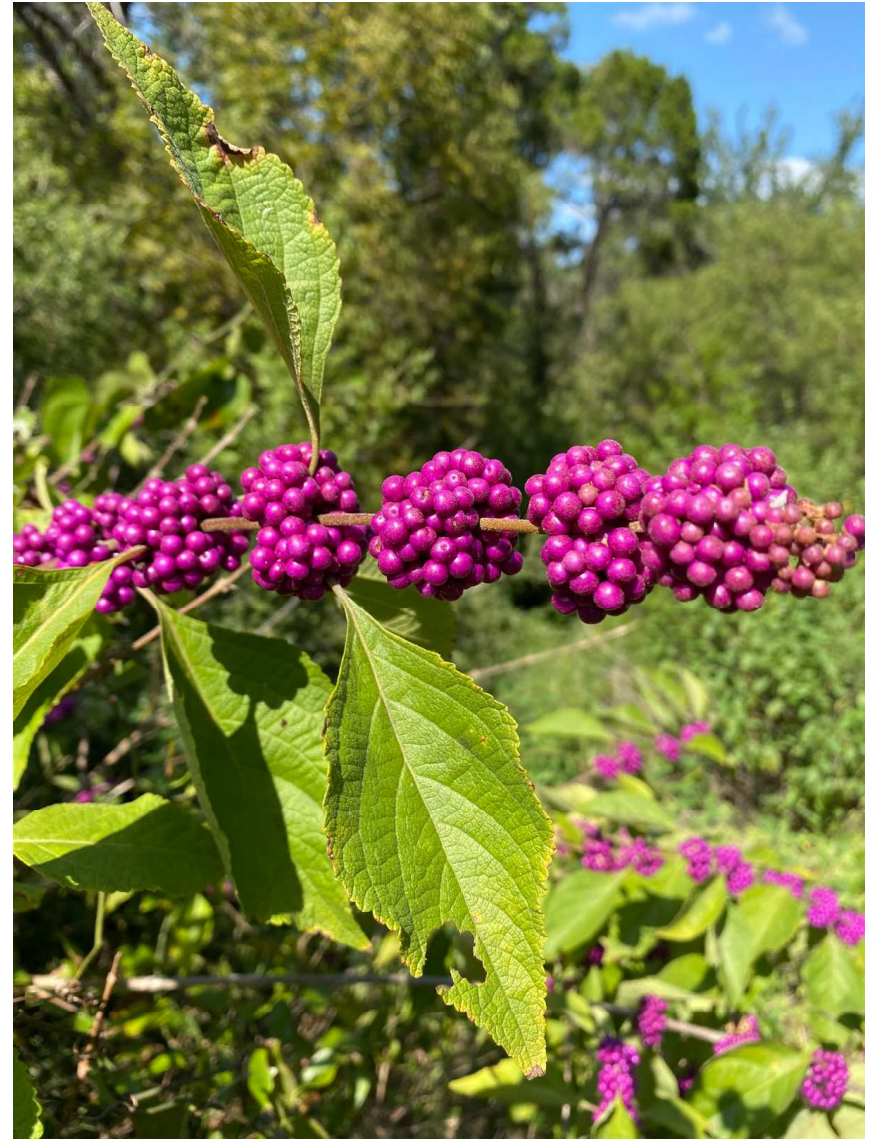

KIDNEYWOOD

- Looks similar to beebush
- Dense shrub
- Deer-magnet

BEAUTYBERRY

- Not really a Fall bloomer
- But attractive in the Fall
- Deciduous shrub

THANK YOU!

Plateau Land & Wildlife Management

Less work, more enjoyment.
